

Lyme Bay Pinot Noir Rose 2019

Region

If you have never tried an English wine before – well now is your opportunity. The vineyards of England are generally located in the warmer southern counties where the milder influences of the gulf stream have an important effect, as our northern hemisphere vineyards need a longer cooler growing season than in Europe to produce top quality grapes. More than 500 vineyards are in production across the UK and bottled annual sales has reached 3 million bottles, with Chardonnay, Pinot Noir and Bacchus the most planted varieties.

Tasting Notes

Clear salmon pink in colour, the wine has an intense bouquet of cherries and rosehips. The palate is slightly off-dry with a fresh, balancing acidity and notes of strawberries and blossom.

Food

Serve with fresh seafood such as crab or lobster.
