Saurus Pinot Noir, Familia Schroeder 2024

Region

Patagonia is the most southerly wine producing region of Latin America, lying to the south of Mendoza and las Pampas. With considerable new investment, Argentinian Patagonia is fast emerging as the country`s most exciting cool climate vineyard, making elegant wines with balance and complexity in contrast to the more heavier reds of Mendoza. The region includes two important wine producing provinces, Neuquen beneath the Andes, and the Rio Negro towards the Atlantic Ocean. These are semi-arid, alluvial desert vineyards which benefit from constant sun and breezes that help mitigate disease. The vines can produce cool climate varieties including Pinot Noir and Sauvignon Blanc with good aroma and concentration as well as perfect levels of acidity.

Producer

Familia Schroeder's winery and the surrounding vineyards are located in San Patricio del Chañar, Patagonia at the heart of the southernmost wine region of Argentina. The winery's building, perched on a gentle slope that dominates the vineyards, with an architecture that blends naturally with the surroundings, takes advantage of the differences of level, allowing a gravity flown winemaking. When construction began to build the winery, a dinosaur was unearthed and in tribute to this 75-million-year giant, the name Saurus was given in tribute! Located at 39' Latitude South in San Patricio del Chanar near Neuquen the Schroeder vineyards are planted on gravelly soils and combined with warm days and cool nights provide near perfect conditions for grape cultivation.

Tasting Notes

Deep red colour and a floral with red fruits of raspberries, currants and strawberries. Mineral notes and hints of vanilla and cocoa from oak aging. 40% aged 3 months in oak barrels. The 60% was stored in stainless steel tanks. The palate is round and fruity with mild tannins, medium body and moderate acidity.

Food

Serve with chicken dishes and pasta with tomato sauces.
